Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Kodol Digests What You Eat Make the Stomach Sweet.

Joplin, Mo., August 10, 1904.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir:—I have used less than one bottle of your Texas Wonder, and it acted like a charm in my case, and I have not suffered with my back since using it, and can cheerfully recommend it.
Very respectfully,
WM. BATEMAN, 712 Pearl St.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all Kidney and Bladder troubles, removes Gravel, cures Diabetes, Seminal Emissions, Weak and Lame Backs, Rheumatism and all irregularities of the Kidneys and Bladder in both men and women. Regulates Bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment, and seldom fails to cure any case above mentioned. Sold by all druggists.

New Use For Auto-Goggles.

Engineer Frank Benjamin, of the Chicago and Alton Railroad, probably was the first locomotive driver in the world to stick his head through a cab window with a pair of automobile goggles protecting his eyes. But since that innovation, more than two years ago, the use of automobile goggles has spread, until dozens of the engineers on that line regard them as indispensable to their comfort and to the best interests of their work.

WANTED—A good reliable man

with horse and rig preferred, for Lexington and surrounding towns to distribute circulars samples, and take signs, either in connection with present work, or give entire time. No money required. A good opportunity for a hustler. Address: ATOS PRINTING CO., Dept. 347 South Whitley, Indiana.

The Southerners Approve.

Prof. William Benjamin Smith's book, "The Color Line," discussing the race problem, was presented by him as an expression of the Southern's point of view. That he was correct in so presenting it is evidenced by the immediate success that his book has had among the people in his own section of the country. The sales of the book throughout the South have been remarkable, and in his own town, New Orleans, it has sold more rapidly than the average popular novel.

Thoughts on Rotation.

Rotation is the planting of crops in a regular order of succession, which is repeated from one series of years to another. Since the small cereals succeed best after cultivated and grass crops, and these succeed well after the cereals, an advantage results in growing these classes of crops in alternation, rather than in planting each continuously upon separate fields.

Next to producing profitable crops and maintaining the fertility of the soil, keeping down weeds is the most important result of rotating the crops in a given field. Some of the points which must be considered in planning a rotation on the fields of a farm may be enumerated as follows:

Devise a plan of rotation which will maintain the fertility of each field and at the same time give yearly profits from the farm. Make a drawing of a plan of the farm which shall be divided into several permanent fields. Where practicable each field should be fenced and connected with the barnyards of a centrally located lane, that each field may be pastured during any part of the year. When the farm is all arable land it pays best as a rule to bring it all under systems of rotation, unless location of some fields seriously interferes.—Field and Farm.

WANTED—Salesman with ability and business experience to sell High Grade Lubricating Oils, Greases and Paints on commission. Man owning horse and buggy who could call on owners of threshing machinery preferred. Liberal terms. References required. The Federal Oil Co., Cleveland, Ohio.

No one ought to come into the church, who is not first, by virtue of direct contract with Christ himself, a Christian. But many start off wrong. They join the church, submit to its doctrines, conform to its ordinances, seem to be Christians, but it is all superficial, external. The spirit that inspired the master has no real dominion in them.—R. v. B. Craig.

We cannot be selfish with our life's power and live. No life, however rich is rich enough to keep the power of life. We must spend it. We have minds, power of thinking and reasoning. It is our duty to search for the precious truth and to give it to the service of righteous human progress.—Rev. E. R. Griffin.

We have more of God in the world now than in Bible days. Then God had to break through nature by a miracle in order to be recognized; now we realize that nature is God. When he was over us, God transcended; but now he is God immanent. Immanuel, God with us.—Rev. Frank Crane.

or trade for stock, a good "Brown" corn planter. E. B. VAUGHN.

A rich man died the other day. He died in the very midsummer of life, and he left his family \$1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dinky complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, dependency. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

"Please accept my thanks for the benefit which my child received from your medicine," writes Mrs. W. A. Morgan, of Silica, Mo. "He had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave him your 'Golden Medical Discovery' and 'Pleasant Pellets,' and they did him great good. I gave him the 'Discovery' about eight months, and several vials of the 'Pellets.' He seems to be perfectly well now."

If you want a cure accept no substitute for "Golden Medical Discovery."

These ORIGINAL Little Liver Pills, first put up by Dr. E. B. VAUGHN over 40 years ago, have been much imitated but never equaled. They are made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged stomachs, livers and bowels, and their attendant distressful ailments. One or two or four, three or four a cathartic.

A Great Force For Good.

In the last week of March the Salvation Army celebrated the twenty-fifth anniversary of its establishment. It has outlived most or much of the prejudice originally felt against it. "By their fruits ye shall know them." The success of its American farm-colonies has brought Mr. Rider Haggard to the United States to study its methods.

It provides 3,000,000 beds a year for the poor. In the cities it reaches and relieves portions of the population that hardly anyone else seems to be able to reach. It inculcates self-support, self-control, hopefulness, and physical and moral cleanliness. It "gets right hold" of people and tries to lift them up. The suspicion or contempt with which it was looked upon has passed away. The work of its more than three thousand six hundred workers speaks for itself. People know it is no humbug. Its success is something that all of us without distinction of religion or irreligion ought to be glad of.—"With the Procession," in Everybody's Magazine for May.

STRICTLY GENUINE.

Most of the patent medicine testimonials are probably genuine. The following notice recently appeared in the Atchison (Kan.) Globe: "Joe Tack, a well known engineer running on the Missouri Pacific between Wichita and Kiowa, lately appeared in a big one, with a picture, and when he was in this office today, we asked him about it. He says he had terrific pains in his stomach, and thought he had cancer. His druggist recommended Kodol and he says it cured him. He recommended it to others, who were also cured." Kodol Dyspepsia Cure digests what you eat and cures all stomach troubles. Just as surely as the sun shines your stomach can be brought back to its original pure condition and life sweetened by this lasting and truly the greatest digestant known. For sale by Crenshaw and Young.

Justice to the Indian.

Cyrus Townsend Brady's recent book, "Indian Fights and Fighters," the fourth in the American Fight and Fighters Series, is notable in that it treats the Indian with absolute fairness and justice. In gathering material for his account of these Indian wars, Mr. Brady not only interviewed the white survivors of the engagements, but in many cases talked with the Indians, and was able to obtain their personal view of the situation. The illustrations of the book are similarly unusual, especially from the Indian side. There are forty-eight portraits of officers and Indians, the latter from exceedingly rare contemporary portraits, and a dozen special drawn pictures by artists who are widely celebrated for their accurate knowledge of the Indian, the soldier, and life on the plains, such as Remington, Seneyvogel, Blumenschein, Demming, etc.

HERBINE.

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints.

It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise.

R. N. Andrews, Editor and Mgr. Cocoa and Rockledge News, Cocoa, Fla., writes: I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by Crenshaw & Young, Druggists.

A New Industry.

Odessa Ledger:
Mr. S. H. Phlegar is opening up a new industry in this section that of raising cucumbers for pickles. He has made arrangements with the Steinhorst-Morrin Pickle Co., of Kansas City, to buy cucumbers here this year, and to contract with farmers for as many acres as they want to put in, and he will take the entire crop from the earliest to the very last. It is said to be a very profitable crop, the yield being from 150 to 300 bushels per acre.

Do You Suffer From Kidney Troubles?

There are genuine spiritualistic phenomena, without doubt, otherwise the Bible itself would be untrue. But it is, I think, perfectly safe to say that not more than one in a thousand cases connected with the vast number of seances in this country alone is worthy of credence.—Bishop Fallows.

God's justice gives to all alike the privileges of the Gospel, for God is no respecter of persons. God's love to man and his goodness to the race prompts him to offer to man the privilege of sonship to God in Christ. Man has power to accept or to reject this Gospel.—Rev. C. C. Smithers.
